### Attachment Instructions

The Barrel Nut Fastener (post and screw) is supplied loosely threaded through this pouch and is intended for tool pouch attachment to the body belt. The tool pouch may be attached to either pouch tab at user's preference. To attach, insert the post section (with head of post facing away from your body) through the hole of the body belt pouch tab and tool pouch. Thread the screw into the post (screw head towards your body) and securely tighten.

The protruding screw must be peened over / mushroomed to prevent the screw from loosening from the post and accidentally releasing the tool pouch.
