BUCKINGHAM MFG.

INSTRUCTIONS / WARNINGS
(PN 6251 SUSPENDERS SHOWN)

Fig. 1

Warning: Do not use this product if you cannot understand and follow the instructions and warnings that come with it and complete all necessary functions.
Please consult with your physician prior to using this product. Do not use this product under the influence of drugs or alcohol.

Fig. 2

Buckingham's PN 6251 Suspenders are designed to support the weight of the body belt and the tools attached to it. These suspenders also aid in keeping the user's body in the belt in an event where the user has been inverted. The individual's weight must be supported by a properly sized Linemen's Body Belt with the belt buckle properly engaged. Never detach the waist belt buckle of a body belt when it is in use.

Wearing the body belt too low and using the combination as a saddle is an **IMPROPER USE** of the products.

Suspenders **ARE NOT** to be used as Fall Protection Equipment as there are no rated fall arrest attachment points.

Fig. 4

Improper Use of These Products May Cause Injury or Death

Sizing:

- Suspenders are one size fits all.

Installation:

- To attach the PN 6251 suspenders to a body belt, disconnect the ends of the suspender back straps by unweaving them from the plastic friction buckle and 2 slot buckle. Place the suspender back straps in the opening between the body belt back pad and the body belt waist strap and form a loop around the body belt waist strap (Fig. 1 - 4). Next, feed it back through the 2 slot buckle and then through the plastic friction buckle (Fig. 5). Repeat this process for the opposite side suspender back strap (Fig. 6).
- To attach the front straps, first feed the billet end of the waist strap through the loop of the corresponding suspender front strap (Fig. 7). Next, feed the buckle end of the waist strap through the loop on the opposite side strap (Fig. 8). Buckle the waist strap and visually check attachments prior to use.

Fig. 5

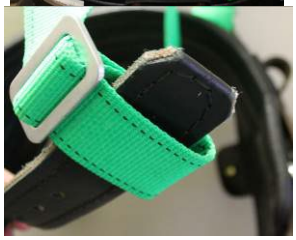

Adjustment:

Suspenders should be adjusted such that they assist with the weight distribution of the body belt and to maintain it in the correct position. This is accomplished by loosening, or tightening, the strap end adjusting the web through the 2 slot buckles on the front of the suspenders. After adjusting, placement should reflect that of Fig. 9 & 10.

Fig. 6

Cleaning:

Proper maintenance and storage of your equipment will prolong its useful life and contribute toward its performance. The equipment should be cleaned and maintained at regular intervals depending on usage.
Clean with water and mild soap (a dish washing soap that removes grease (i.e. Dawn)) and allow to dry thoroughly without using excessive heat. Do not use any type of corrosive substance or acid, which will gradually eat away the fabric.

Fig. 7

NOTE: Ensure proper fit / size of product before use. This product cannot be returned unless it is in new / unused condition.

STATEMENT of OBSOLESCENCE:

Precise “useful life expectancy” or “shelf life” for this product is not specified, as the degree of use, conditions of use, and the degree of care and storage determines useful life. All users maintain responsibility to select proper equipment for the job, be properly trained in its use, and ensure all personnel support equipment passes inspection before each use. Upon evidence of defects, damage or deterioration, all equipment shall be removed from service immediately and tagged or marked as unusable or destroyed. Additionally, all equipment shall be inspected on a regular basis not to exceed one year by a Competent Person, as defined by OSHA/ANSI, to verify that the equipment is safe for use. In the event of any question or concern regarding the condition of such equipment, users shall remove the equipment from service for further inspection. All users must comply with OSHA/ANSI/ASTM standards prior to and in using such equipment. For more information regarding safe and appropriate use of equipment, please contact Buckingham Manufacturing at 1-800-937-2825.

INTERNATIONAL USERS:

Notwithstanding the above, please know that certain international jurisdictions require manufacturers of equipment to provide customers with a maximum useful lifespan (sometimes referred to as a “Statement of Obsolescence”). To the extent required, Buckingham personal protective equipment manufactured from synthetic fiber materials including but not limited to items such as webbing and/or rope are subject to a maximum useful lifespan of ten (10) years from the date of manufacture. As stated above proper usage, storage, maintenance, and care impacts the useful lifespan of equipment. Extreme circumstances may require that product must be retired after only one use. This statement is made in conformance and compliance with BS EN 365:2004. International users must ensure that product inspections are completed by Competent Persons as defined by international standards including but not limited to British Standard (“BS”). If equipment fails any inspections, it must be immediately withdrawn from service and destroyed. For more information regarding safe and appropriate use of equipment, please contact Buckingham Manufacturing at 1-800-937-2825.

OUR GUARANTEE:

We guarantee the equipment we manufacture to be free from defects in material and workmanship. We will repair any equipment deemed to be defective which is returned to us by the original purchaser. However, this guarantee is void if any product is changed or altered in any way, or if the product is used in a manner other than for which it is intended. This express guarantee supersedes all other expressed or implied guarantees, obligations or liabilities. There are no implied warranties of merchantability or fitness for a particular purpose and as such, all implied warranties are specifically disclaimed.

LIMITATION ON LIABILITY:

In no event will Buckingham or buyer be liable to the other for lost revenues, lost profits or any other indirect, consequential, special or punitive losses or damages, however caused, whether in action for breach of contract, strict liability, tort, or otherwise, even if advised of the possibility of such losses or damages. In no event will Buckingham’s liability exceed the total amount paid by the buyer to Buckingham for the product or equipment giving rise to such claim(s).
